Section III

Category Bonuses

During this section of the round, you will hear five toss up questions that will count ten points each. The player who answers the question correctly will give the team the opportunity to choose from six categories of bonus questions. There are two bonus questions per category and they count ten points each. The bounce back rule is in effect. Should the team not be able to answer the question, the other team will have the opportunity to answer. Answers from the opposing team must be immediate!

This year the bonuses are labeled with the name of a movie. The bold face word or words in the title of the movie will give you a clue as to what the bonus is about, so choose carefully. For example, a bonus titled An American Werewolf in **Paris**, in which Paris is in bold print, would have something to do with the city of Paris or any related cities named Paris. Have fun with this section.

(**Note to Reader:** Give each team a copy of the bonus categories before advancing in this round. Be sure to mark off a category as it is used.)

If neither team correctly answers the toss-up, then the bonus questions will be up for grabs on the next question.
